P2P CLIENT (TORRENT) ▶

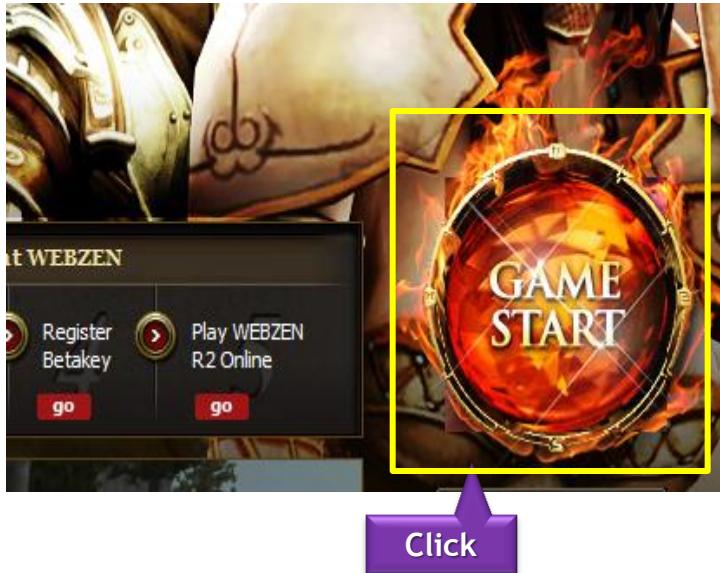

gamershell.com

3-1) In order to play R2 Online, you need to download the client first.

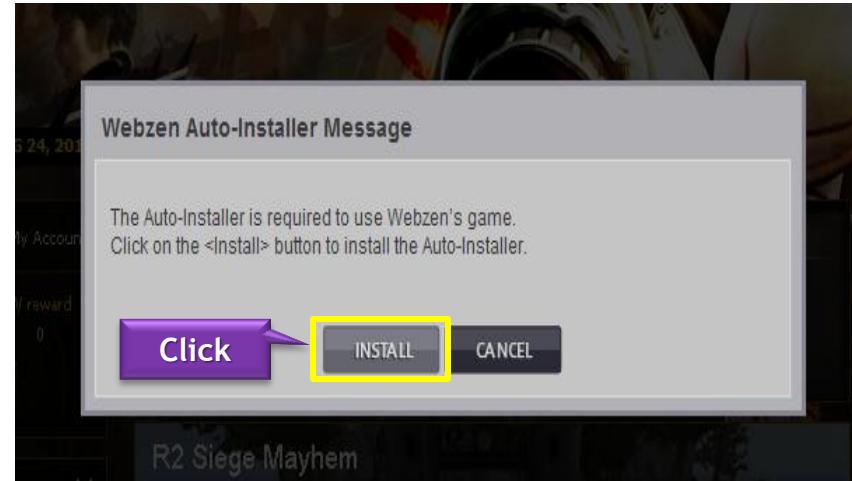

Click on **DOWNLOAD** button on **the top-left side** of official R2 Online website or WEBZEN.com portal.  
You could download R2 Online Client through DOWNLOAD page, P2P(torrent)and Mirror sites

# Installation Guide

## 3. Installation Instructions

3-1) Start the game client by clicking the **[START GAME]** button on the Webpage

If you have connected to the game for the first time, you will be prompted to install a Web Starter automatically. You just need to click the **[INSTALL]**button

# Installation Guide

## 3. Installation Instructions

**NOTE: IF you can't proceed, you should allow your IE to enable all Active X control and Plug-ins**

For your convenience, R2 Online is compatible with both **Internet Explorer** and **FireFox** enabled  
Browsers. ActiveX is also required to properly download, install, and launch game.

**To Change ActiveX control settings, Please see below:**

**\*Please note: Following steps will require the Administrator PC login. Also, this may default your Internet browser's security settings (If they were customized). Modifications of these settings are done**

**At your own risk**

- 1)Open Internet Explorer
- 2)Click Tools>Internet Options
- 3>Select Security Tab
- 4)Click "Custom Level"button
- 5)Scroll down to view "ActiveX controls and plug-ins"
- 6)Enable all ActiveX control and plug-ins.

Once this has been adjusted Users may fully utilize the R2 Online Service without **further ActiveX Compatibility issues or prompts**

After installing the Web Starter, you need to restart your web browser. After Clicking **[START GAME]**button  
On the webpage, you can see the game launcher. Click the **[START]** and play the free online game!

### 3-1) GameGuard Error FAQ

**Q:** The game became slower after GameGuard is applied. What do I do?

**A:** Please check the specification of your PC. If your PC meets the recommended spec, [please check the settings of your anti-virus program](#). If the unnecessary and heavy features such as real-time virus scan, please try to turn it off, minimize the number of features used, and try again. Sometimes, the conflict with anti-virus can occur. If the anti-virus takes up high CPU occupancy, it helps to run the game smoother if you turn off all unnecessary features.

**Q:** GameGuard just closed the game with a notification that a hacking tool was found in my system!

**A:** not only cheating tools, but also virus or spy-ware can cause the game not to run properly. Please try to scan PC with [up-to-date anti-virus](#) and [ad-ware scanners](#) like [Ad-Aware](#).

**Q:** It says GameGuard failed to update. What do I do? ([Error code: 380](#))

**A:** Please download GameGuard manually using the link provided, and try installing. If you are using [Windows XP Service Pack 2](#), please [check the firewall settings](#) to see if GameGuard is allowed to access. Sometimes, the problems disappear by restarting the PC.

**A2:** It is possible that firewall application such as [Sygate Firewall](#) might be blocking the access of GameGuard. Please open the specific firewall and check if GameGuard.des is blocked or not.

**Q:** It takes too long to load the game, and at last, displays [Error code 114](#) and game is closed.

**A:** There could be a program that might be taking up too much CPU resource. Or, the video driver or sound driver might be out of date. Please [scan for any virus](#) and [spy-ware](#), and [update all drivers to the most recent versions](#).

**A2:** The user might be running an [anti-virus software](#) that is too heavy for the particular system([Norton 2005, McAfee, VirusBuster, etc.](#)) Please open the settings of the application, and disable

any unnecessary features like internet monitoring, outlook monitoring, scr(i)pt monitoring.

### 3-1) GameGuard Error FAQ

**Q:** GameGuard update is not working and **Error code 124, 150, or 153** is displayed.

**A:** Please try downloading and install GameGuard manually, using the link provided.

**Q:** The game would not run, and **Error code 100** is displayed.

**A:** Computer is infected with virus. Please update the anti-virus to the latest and scan the PC.

Even after scanning, if the **error code 100** persists to appear, it might be **undetectable virus**.

Please try with another anti-virus then (Each anti-virus application company offers free scanning.)

**Q:** GameGuard is not initiated, and **Error code 360** pops up.

**A:** Right click on hard disk drive – select device – do disk scan, delete GameGuard folder in the game directory, download GameGuard using the manual link, install and try again.

**Q:** GameGuard is not initiated, and **Error code 361** pops up.

**A:** GameGuard update is not processed well. Please check the internet settings, network, and see if security program such as itop is running or not. Also check if you need to get authorized before connecting to the internet.

**Q:** GameGuard update has stopped and **Error code 350** pops up.

**A:** Cancel button has been pressed. It could also be slow update due to insufficient network bandwidth. Or, FTP or HTTP connection might be blocked. Try pressing “**Retry**” button.

# Character Guide

## 3. Classes Description

There are **Knight**, **Ranger**, **Elf**, **Assassin** and **Summoner** Also There are both **male** and **female** for each class

### 1. Knight

After ruining peers by force, Knights became the new ruling power whom are strong at close combat.

Only Using Close range weapons made one' s body like a steel with Physical training and ascetics.

### 2. Ranger

Most of rangers are commoners whom are specialized in both long Ranged weapons and close range battle.

No one can disregard them with their agile movement from real experience and good with various wapons.

# Character Guide

## 3. Classes Description

### 3. Elf

Owner of this land before humans crossed ocean and get settled uses magic power from nature with their high intelligence, which are attack magic, Assisting attack magic, and protection magic

One cannot be careless because elf warriors are great with their sword skill as well as their magic

### 4. Assassin

Whom were assassination unit under Dark priests, deserts from their unit.

Later on meets with Velken and joins he's unit.

Fight along against Dark priest and a big conspiracy

# Character Guide

## 3. Classes Description

### 5. Summoner

Some people were raised by Merman, are natives of Accra island, and have special skills. The strongest of this group are called Summoners.

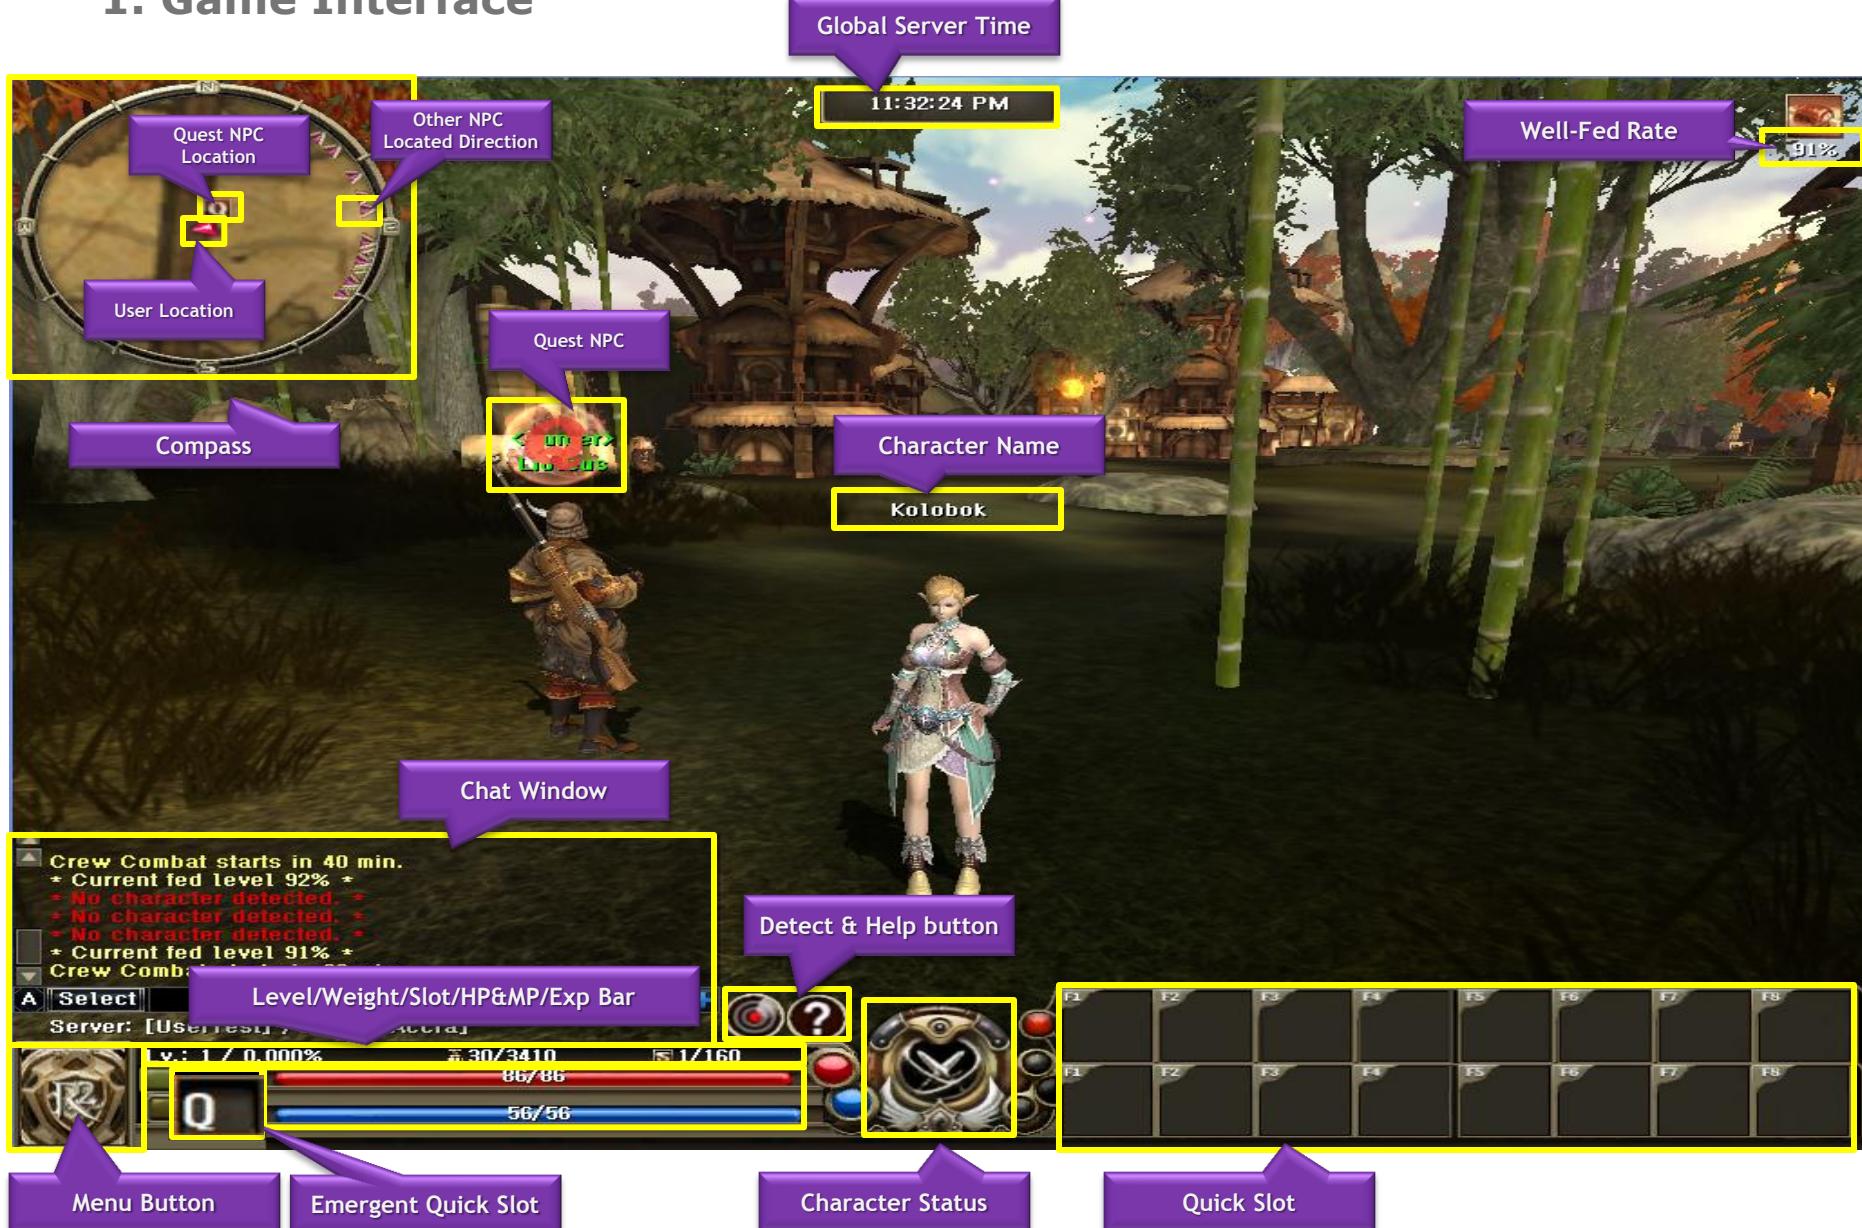

They can manipulate Mana different from others, and know how to control a variety of demons, animals and summoned creatures. Summoned creatures do not hesitate to sacrifice themselves for their masters.

The background is a dynamic collage of characters and scenes from a fantasy game. It features a blonde woman with a headband, a man in golden armor with a sword, a woman in dark armor with glowing energy, a man in blue armor with a staff, a woman in black armor with a sword, a man in red armor with a bow, and a woman in green armor with a staff. In the center, a large green dragon breathes fire over a city. To the right, a massive stone structure with wings is surrounded by smoke and fire. The overall atmosphere is one of epic combat and adventure.

**Opacity lvl adjustment:** Adjust 5 different level by clicking it

**Chat filter setting:** Filter chat types to blinding unwanted types

**Create sub chat:** Open a new chat window and set a chat type

**Close sub chat:** Close chosen sub chat window.

### 1-4) Sub Chat window and filter function

## 2. Item & Give Item

### 2-1) Item Determination

The items are generally determined by **Eternally Cursed(Red)**, **Cursed(Red)**, **Normal(white)** and **Blessed(Yellow)**.

**Cursed Item**

**Normal Item**

**Blessed Item**

-Once you put on cursed item, you cannot unequip it. However, you can cure cursed status by Using [\[Remove Cursed Potion\]](#)

-When you retrieve an item during hunting it is in a unidentified status, and you won't be able to know item information clearly. However, by using [\[Analysis potion\]](#) user will know exact information about this item

#### [Eternally Cursed item]

Eternally Cursed item have a little difference from cursed items. When you use [\[Remove Curse Potion\]](#), It will [cure the curse temporarily](#), and if you equip it again it will [return to Eternally cursed status](#).

## 2. Item & Give Item

### 2-2) Classification of items

The items are classed as **Potions**, **Weapons**, **Armors**, **Accessories**, **Wands**, **Scroll ingredient items**, **food**, **quest** and **Material item**

[Potions]

There are [Health Potion], [Teleport Magic potion],[Return to Town potion], [Remove Curse Potion]. To use the potions, There are two way to use potions. One of them is double clicking the potions on your inventory, another way is pushing the shot cut key after putting it on the quick slot

-**Health Potion** – Heals character's HP small amount

-**Teleport Potion** – Teleports a character to nearby spot randomly.

-**Remove Curse potion** – Use them on a Cursed item, It removes the curse.

[Weapons]

Weapons have no limitation of level or class to equip.

However, there are class exclusive weapons, sword and shield for knight,  
Guns and bows for ranger, staff and spell book for elf, crystal ball, sword, bow for summoner

[Armors]

There are helmet, armor, glove, boots and shield for armors. You can equip and unequip by double clicking within inventory

## 2. Item & Give Item

### [Accessories]

There are ring, necklace and cape for accessory and they give various special attributes to characters. These special attributes either increase character's stats or decrease them, can make character invisible to others, and able to teleport to specific places one desires. Also resistance against attribute monsters.

### [Wands]

There are Thunder wand, Wand of Summoning, Spider's wand, Transformation wand for wand items. You can use them by double clicking them or double click and click on your target. There are no class restrictions on using these items.

### [Spell Book]

There are elf only spell book and summoner only spell book. Fire bolt, Ice bolt, and others are only for elf class, and you can repair(recharge) the used spell book through NPC in town. For some spell books are allowed to enchant. You can get these items through hunting monsters or shop from spell book merchant.

### [Ingredient Items]

Wolf hide, piece of chain, silver ore, steel ore are ingredient items. If you bring them to manufacture NPC, you can make item(Weapon/armor/etc). There are commission fee when making an item  
Ex) When making [Wolf Hide Glove]: if you bring 10 wolf hides, 1 spider web, 700 silvers to clement in Ashburn town, you can make [Wolf Hide Glove]

## 2. Item & Give Item

[Food]

Bread, beef, rabbit meat are food type, which affects [Well-fed level].

- Bread : Recovers 10 well-fed level
- Rabbit Meat : Recovers 30 well-fed level
- Beef : Recovers 30 Well-fed level

[Quest items]

Quest items are only for doing quests.

[Materials]

Items which contain condensed Mana, which will tremendously affect character's stats. You can purchase through item mall or some server one may receive this item from monsters from monsters from inventory(Tab or I), Move to material tab and you can equip it by double clicking.

You can also enchant them by gathering 4 of same type and same level materials and run them in Material Evolution window.

## 2. Item & Give Item

### 2-3) How to use items

By double clicking at invent(Tab or I) or using Shortcut key(F1~F10) after inserting item in quick slots. For potions when you double click, it will use them, for equipments, it will equip or unequip your items.

-Default Quickslot=F1~F8

-Top bar Quickslot=Shift+F1~F8(Hide top quickslots=F12)

-Emergency Quickslot= Q

### 2-4) How to equip Quick slot

Drag an drop the items which you want to equip from your inventory into the quickslot general Drag & Drop works well to equip an item

## 2. Item & Give Item

2-5) Give item means

This function can allows you to give items to someone's inventory without going through the trade window

PC(A) gives it to PC(B)

There is one condition for this function, it's only possible between same guild members

PC(A) gives it to NPC

There is no condition to give items between NPC and PC. It works 100%

PC(A) gives it to monster

There is no condition to give items to monsters like NPC. The items which you have given to monster will be dropped again when you kill this monster within certain time.

PC(A) gives it to Dead man

There is no condition to give dead man even though they are different guild member, monster and NPC

### 3. Store

#### 3-1) How to purchase an item at store

[1] Talk to Store NPC.

[2] Put your mouse cursor on a item you would like to purchase click **right button** and bring a pop up window where you can enter amount.

[3] Click number keypad or on your keyboard amount you wish to purchase.

[4] Click or Press enter.

[5] Then chosen item will be added to the purchase list.

[6] Lastly Click '**Buy**' button then your silver will withdrawn and items you have purchased will go into your inventory . Purchase process is finished.

#### 3-2) How to sell and item an item at store

When selling an item, the process is quite similar with purchase process.

But, only sellable items in your inventory will be shown on the sell list. Just as above follow instruction as [1]->[2]->[3]->[4]->[5] then click '**sell**' button to finish

\*At number[3] instruction if you press shit+mouse right button, your weight and silver amount gets calculated automatically and maximum amount will move to the list. Or, If you enter amount more than you can have it will automatically designate max amount.

## 4. Weight and Well-fed Concept

### 4-1) Weight Concept

Weight means how much a character can carry. Weight is displayed at bottom left corner with numbers, when it goes over **70%**(Red text) **HP/MP will not recover automatically**. If it goes over **100%**, you **will not be able to pick up items anymore**. However, only silvers are allowed. You can carry about 160 slots total.

### 4-2) Well-Fed concept

Well-Fed shows **how hungry a character is**, depends on it's status **attack rate's increase or decrease** are affected. It displays on right top corner with meat image, if you put a mouse cursor on it, it will show the status in numbers. In order to fill up the Well-Fed level, all you need to is eat any food items(**Bread, Meat**)

### 4-3) How to use Storage

In each town except Guinea Island, there are **Storage Keeper NPC**, In Ashburn town, There is '**Popo**', in Blackland town '**Modma**' are in charge of storage. For each item they take **30 silver** as Commission fee, for silver storage, they don't charge anything.

You can use about **300 slots** in total

## 5. In-Game Basic Route

### 5-1) Guinea(Knight, Ranger, Assassin)

Knight, Ranger and Assassin class will be started at Guinea Town.

If you clear NPCs' Basic quest, you can get useful items and information from them.

All you have to do just follow instruction as [Stax] -> [Aloma] -> [Olivia] -> [Lamkin]

Named 'Cook' npc allows you to go to Ashburn town directly

When your character becomes lv 10, You will be moved to Guinea automatically. After that you will never have to go back to Guinea.

## 5. In-Game Basic Route

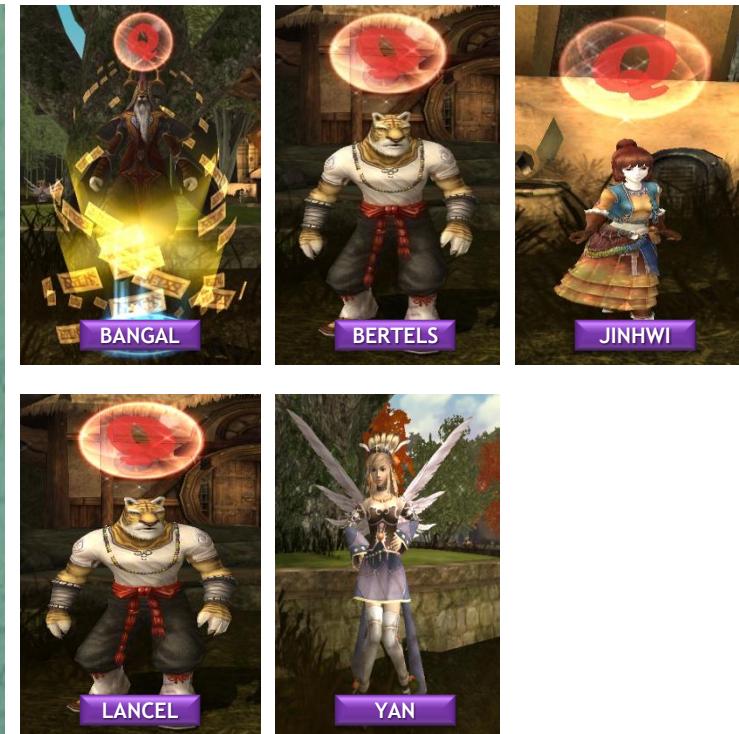

### 5-1) Accra(Elf, Summoner)

Elf and Summoner class will be started at Accra Town.

If you clear NPCs' Basic quest, you can get useful items and information from them.

All you have to do just follow instruction as [Bangal] -> [Bertels] -> [Jinhwi] -> [Lancel]

Named 'Yan<sup>5</sup>' allows you to go to Ashburn town directly, if you pay 1000 silver

Elf and Summoner can go to Ashburn any time you want. However, you should pay 1000 silver to go to Ashburn

# THANK YOU!
